Ruby is my ~~most second~~ third favorite  
programming language of all time.

1. My own super-awesome programming language, Teepee  
*(but it's not that awesome just yet)*

2. Common Lisp

3. Ruby

4. C

5. Clojure

...

999. Java

So why do we want the JVM? Because there's tons of great libraries for everything.

*Questions?*
